Languages and Technologies

Langs: **PHP, JQuery, API's,**

Version: **M2**

Tools: **PhpStorm, Atom**

Version control: **GOGS**

WhatsApp Chat Extension Magento 2

pinned project

You can get WhatsApp sticky on your Magento Store and even Multistore with Custom Languages and Logo and Number Customizations.

Category listing Widget for Home Page Magento 2

pinned project

you can get populated Products from Specific selected Categories to any page any place and also you can select filters type like if wanna show BestSellers, Sale, Featured type or what you wanna Display.

BuyNow Button Magento2 Free Extension

pinned project

With BuyNow Button End-User will be able to on a single click Add products to cart and then redirecting to Checkout without going to Cart page actually. To reduce steps and increase sales analytics this is perfect.

Extensions Featured
